SUMMARY

AI and Data Science undergraduate specializing in Machine Learning engineering, with hands-on experience building end-to-end machine learning and NLP applications, data pipelines, and full-stack prototypes. Skilled in Python, data preprocessing, model development, and cloud computing fundamentals, with a demonstrated track record of applying AI and data science techniques to solve real-world problems.

SKILLS

Programming Languages: Python, JavaScript, HTML, CSS

Machine Learning: Supervised Learning, Model Training and Evaluation, Natural Language Processing (NLP), Text Classification

Data Analysis: Pandas, NumPy, Data Cleaning, Data Preprocessing, Exploratory Data Analysis (EDA), Data Visualization

Tools and Platforms: Cloud Computing, Git, GitHub, Web Development (Frontend and Backend)

Core Competencies: Communication, Problem Solving, Team Collaboration

PROFESSIONAL EXPERIENCE

AI/ML Intern — Akilam Technology LLP

June-July 2026

- Completed an internship mini-project in AI/ML, engineering an AI-powered student assistance chatbot from concept through implementation.
- Designed and developed the chatbot to support students, applying machine learning and NLP techniques in a real project setting.
- Recognized by the mentor and organization for sincere, dedicated project work.

Full Stack Developer Intern — E-Soft IT Solutions

December-Febrary 2025

- Built responsive frontend components using HTML, CSS, and JavaScript.
- Implemented backend and server-side programming logic to support core application functionality.
- Connected applications to databases to enable end-to-end web functionality.

Junior Data Scientist — Judah Code Technologies

June-August 2025

- Analyzed real-world datasets using Python, Pandas, and NumPy, including data cleaning, transformation, and visualization.
- Preprocessed data and trained baseline machine learning models for prediction tasks.
- Applied the core ML workflow end-to-end, from data preparation through model evaluation.

PROJECTS

Student Performance Prediction Dashboard

- Built an end-to-end ML pipeline predicting student exam outcomes from study hours, attendance, and past scores using a dataset of 1,000+ records.
- Performed data cleaning, EDA, and feature engineering with Pandas and NumPy to identify key performance drivers.
- Trained and evaluated a Logistic Regression/Random Forest classifier achieving ~85% accuracy.
- Designed an interactive dashboard to visualize prediction results and key trends for non-technical stakeholders.

Tools: Python, Pandas, NumPy, Scikit-learn, Data Visualization | Code: github.com/baranikarthick216

AI-Powered Student Assistance Chatbot

- Built an AI chatbot to assist students, developed during an internship with Akilam Technology LLP.

Tools: Python, Machine Learning, NLP, Chatbot Development

AI Resume Analyzer

- Built an NLP-based resume analyzer that extracts keywords and scores resumes against job descriptions.
- Designed the keyword-matching logic used to rank candidate fit for a given job posting.

Tools: Python, NLP, Machine Learning | Code: github.com/baranikarthick216

AI-Powered Healthcare Fake News Detection and Doctor Consultation

- Built a text-classification model to detect fake medical news articles.
- Added an integrated doctor consultation feature alongside the detection system.

Tools: Python, Machine Learning, NLP | Code: github.com/baranikarthick216

Encryption and Decryption System

- Built a secure encryption and decryption application in Python.
- Implemented cryptography algorithms to convert plain text to encrypted format and back.

Tools: Python, Cryptography Algorithms | Code: github.com/baranikarthick216

EDUCATION

Indra Ganesan College of Engineering

B.Tech, Artificial Intelligence and Data Science 2023 – 2027
CGPA: 7.4

Ideal Matric Higher Secondary School

Higher Secondary Education 2022 – 2023
Percentage: 69%

Ideal Matric Higher Secondary School

Secondary School Leaving Certificate (SSLC) 2020 – 2021

CERTIFICATIONS

- Internship with Mini Project (AI/ML) – Akilam Technology LLP, 2026
- Cloud Computing – NPTEL Online Certification, IIT Kharagpur, 2025
- Web Design and Development – National Skill Development Corporation (NSDC), 2026
- Generative AI Workshop – Kongu Engineering College

ACHIEVEMENTS

- Participated in a Technical Symposium and presented AI-related topics.
- Completed NPTEL Cloud Computing Certification from IIT Kharagpur.
- Participated in Generative AI Workshop at Kongu Engineering College.

LANGUAGES

Tamil (Native) | English (Intermediate)

PERSONAL DETAILS

Date of Birth: 21-06-2006

Gender: Male

Religion: Hindu

Father's Name: Mani K
